The upcoming Generation Beyond (Gen Beyond) PC game will feature an all new and original storyline with new characters, creatures, locations and more. Buy Gen Beyond: The story begins with a new alien race called "Nega" that has come to Earth in search of more rich alien resource that can sustain them and their planet. They did not have to come and find it here; the Earth was already rich with resources. So why should they bother? The planet has been polluted and the main source of life is out of reach, but the greed of human race is untouchable and the new planet is more than an opportunity for them; it is a way of life. The player will play as the only human that survived the disaster that destroyed the planet of his own kind. The only hope for survival is finding an Earth prototype that is capable of giving breath to the humans. The storyline of Gen Beyond: The game has been released in a mysterious "wedge" format, as all the previous three were released in DVD format. If you still don't know what a "wedge" is, it is a 5.25" x 4" plastic insert with multiple folds and flaps that can be used to package a DVD. Gen Beyond: The title is set to be released on August 29, 2008. According to the story in the latest information, the game will feature more than six playable characters and about 15 levels. There are also many tasks and obstacles that will challenge the player throughout the levels. There are also several playable characters, like the player character from the old story, another that has been kidnapped by a monster, and two friends of the main character that has been separated. So the game will feature a variety of characters, including the main character as well as a dog and another human character. The player will go back in time and see how the alien race that came to Earth is affecting Earth civilization and civilization in general. The player will go back in time and meet his own past self and find out how he was abducted and turned into an enemy of his own people. Gen Beyond: The new 3-D environment features more than 15 levels that are all rendered and designed by the same development team behind the title. It also features numerous creatures, including monsters that can be manipulated 82157476af
